About This Game

American Farmer was a board game originally created by my father long ago when he was in college and now I bring it to you in a digital format. A game of buying and selling for up to 8 players. A simple yet delightfully fun game, after all who doesn't like to watch their friends lose everything in a devastating fire before nearly achieving victory?

- Includes interactive tutorial to help learn the rules.
- Up to 8 players Human or AI. You can even have computer players against themselves!
- Uses the keyboard, mouse or touchscreen - Up/Down to select on menu, any key to accept chosen option.
- Digital Board Game - Roll the dice and your character walks around the board.
- Turn-Based
- Manage your money in a game of buying and selling, avoid some hazards along the way.
- A bit of planning, a sliver of daring, a serving of luck and your well on your way to becoming rich and famous!
- Unlock all 31 Steam Achievements!

*Achievements currently supported for the Windows version. Mac achievement support is still in development. Thanks for your patience.

*Linux version is still in development. Purchase for any version will include access to all three platforms (Windows, MacOSX, and Linux)

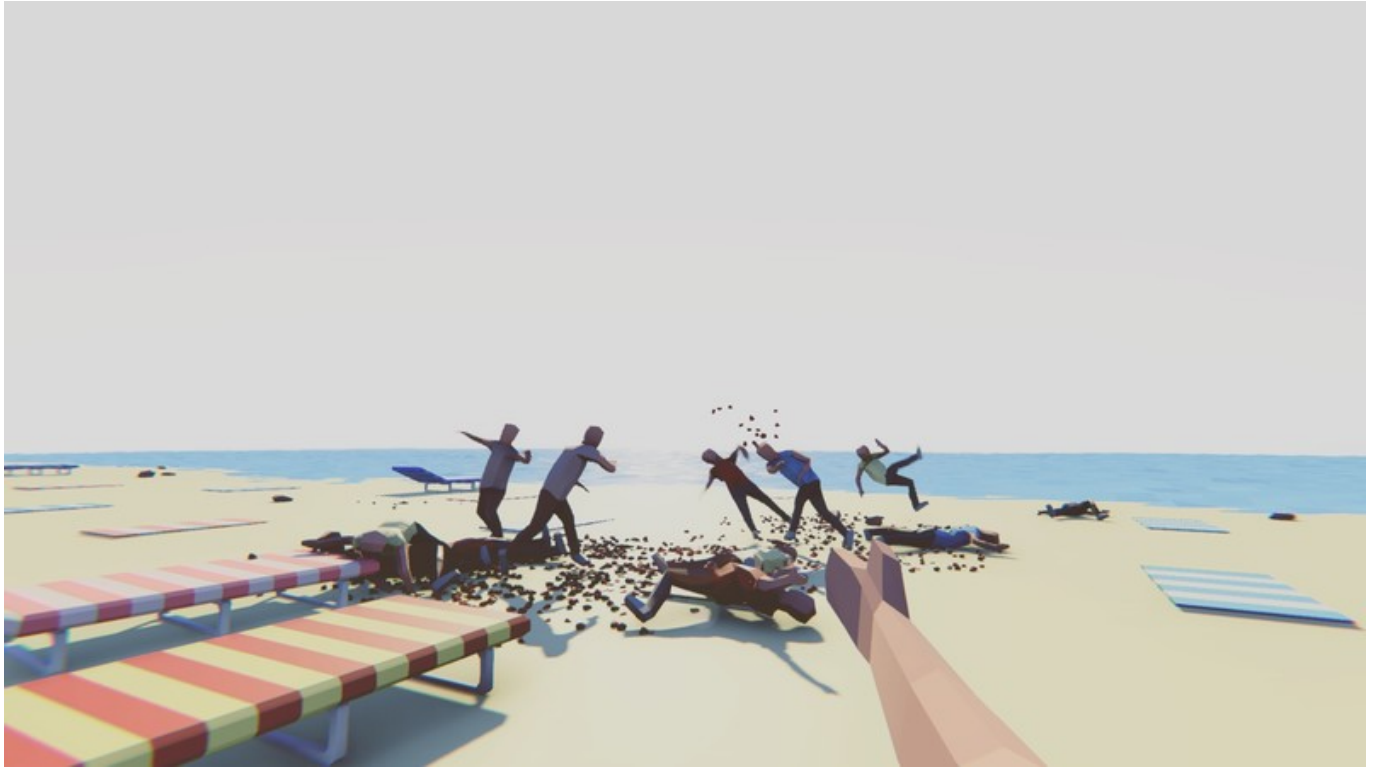

Title: American Farmer

Over the years I have played many strategy games, and this is one that is not just good, it's fun. As I'm interested in the eastern front and this game surprised me, it does a good job in characterising some of those conflicts.. got to run around as a t-rex killing superheroes and super nazi's. It works, the multiplayer works, it's free, it's pretty okay.. Addicting is a mild word for this game.

When it comes to puzzle games it can be tricky to keep players engaged.

10SN does this purely through its challenging and high-concentration game play. The entertainment comes from knowing you can do better and feeling like you have to keep trying. Satisfaction levels are through the roof.

After a session of this game your brain will need a good rest. So pack provisions and don't forget your katana.. So basically, be good or be screamed at.. That \u2665\u2665\u2665\u2665in P O W E R P O I N T though sold.

With African Kingdoms, AOE2 now contains 27 civilizations with 9 styles (8 + Indian official mod), doubled from its original release. This staggering diversity gave rise to a sense of completion: ancient civilizations from all over the world is represented in this game, and they are each unique and fun to play with. This DLC is simply a must have for anyone who loves AOE2.. Liberals are attacking us on steam now.

But seriously, if she is adult enough to have sex and roll the dice that she could wind up pregnant, why is she not expected to be an adult and take responsibility?

Anyways, keep this leftwing produced documentary off steam, I come here for games. We need to stop babying our children or else they end up a college student who cant function because of an election.. The champions pack used to work. But now, it doesn't work at all. I spent thirty dollars on something that doesn't work. Why? I wish I could refund this, but the DLC did work within two weeks of buying, which made it so I couldn't possibly refund this now.. Alien Spidy looks like a hopeful indie game. It has wonderful artwork and runs flawlessly on even my laptop which struggles with most things.

However, The difficulty curve to this game is absolutely ridiculous. You can master everything you need, and be doing levels fine. I found myself that in a matter of literally a couple of levels the game had turned into a rage game with ridiculous difficulty which is next to impossible to complete.

You can try at your own risk, Im a fairly skilled Gamer, But this game just makes your deaths feel unfair and unwarranted.. I really love this game, and maybe when the dust settles the developer might add a way to change the color of a plant after it grows, decorate the pots with lights or add more places to put plants or keep plants that you really like. It's amazing what one developer made. I love how relaxing it is. No currency, no time limits, just smooth progress. Sometimes you just need this type of game. My only complaint is that there aren't enough variety in the succulent plants. I have a huge stockpile of small to medium green succulent plants. My hope is that eventually every word will be super unique. I know it will take time, but maybe one day. I recommend this game if you want to relax and type in silly words that turn into fast growing plants.. why the f*ck this game make me always smiling when clicking for next page
for indonesia ppl trying this game is must

what a deep and heartwarming story. The YDNJ trivia series is great. I love them.. I have no musical talent, but it's still fun to play with. The game sucks.... Two of the issues with games that I have a hard time tolerating are unresponsive controls and, similarly, invisible walls (or similar, as mentioned later). And this game has both in spades.

The zones are chock-full of inconsistent terrain that will block your movement... sometimes. There are lines of ground that impede progress when they look just like the rest of the terrain. Sometimes they look like something (like a tree root or some other silly non-obstacle) but most of the time they have the same appearance as the surrounding area.

The constant frustration of navigating the terrain was severe enough that I couldn't give the rest of the game a chance. Which is apparently a shame because the rest of the mechanics sound awesome.
